

Spot on Weather Website Plan

spotonweather.net

Site Purpose

The purpose of the Spot on Weather website is to provide the local residence a website to find all of their weather needs. This website will be user friendly, visually appealing, and functional. This website will be easily memorable and bring users back day after day to check the weather.

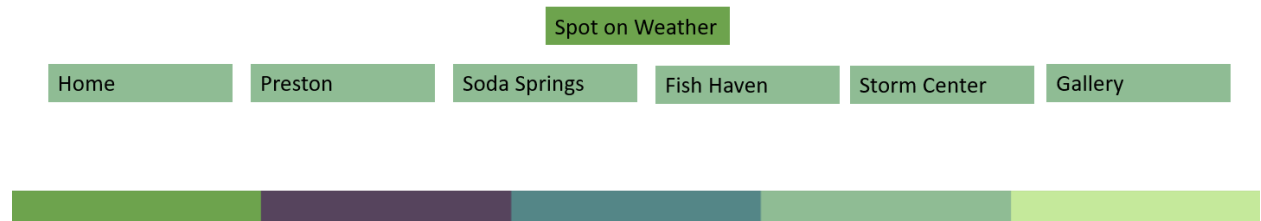

Target Audience

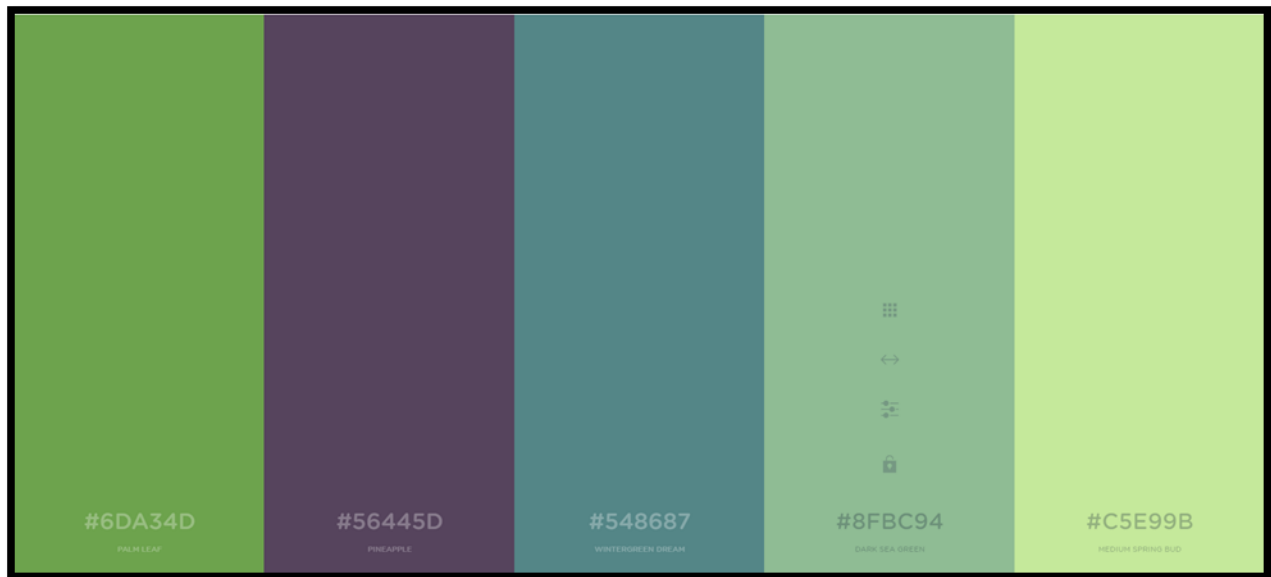

- The “locals”: We are targeting the locals of Preston, Soda Springs, Fish Haven and surrounding areas.
- The younger generation: It is important to note that those over the age of 50 have for most of their lives needed to watch the news, listened to the radio or read the newspaper for information about the weather. Those under 50 are more likely to be interested in going online to see the weather.
- “Blue collar” workers: Those people whose occupation has them working in positions where weather matters. Farmers, park rangers, etc.
- Families: We want to give the information needed to let families know what to expect on their day to day adventures. Stay at home parents want to know if it is a good day for a hike, for a trip to the zoo, etc.
- Weather enthusiasts: We want to bring those who love the weather to this website. We have a storm center and gallery page. These will be for our users to browse. There will be articles, and lovely content to look at.

Site Map:

Color Palette:

Color Assignments:

- Main Logo: #6DA34D
- Navigation: #8FBC94
- Navigation Text: Black
- Headings: #56445D
- Text: Black
- Main Background Color: #C5E99B
- Accent Color: #548687

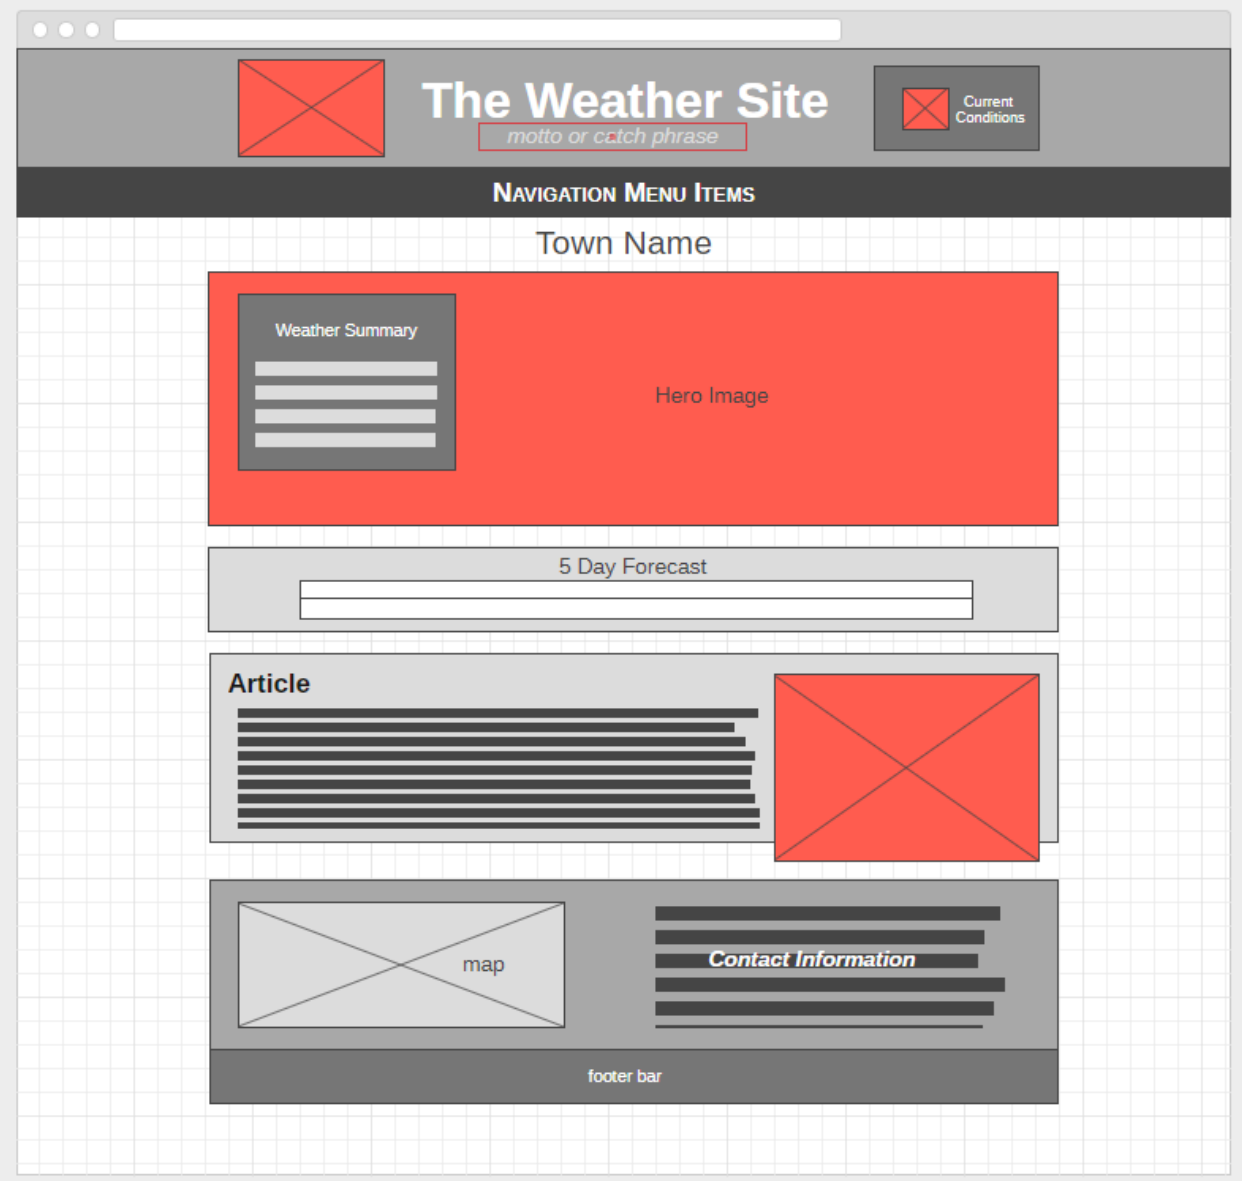

Typography:

Heading- Arial Rounded MT Bold

Body: The body is called Avenir Next LT Pro Regular. I love the clean crisp font and it is very readable.
